

# POWDER RIVER

Development Services, LLC

*Introducing:*

## STRUCTURAL SERVICES

**Structural Engineering services for:**

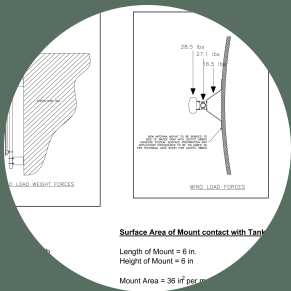

- Self-support towers
- Monopoles
- Flagpoles
- Rooftops

Powder River is pleased to announce a new service offering nationwide Structural Analysis capabilities.

Due to trends in the wireless industry, site modification services have never been in more demand. Our professional engineering staff will accurately determine the structural integrity of a potential site, at a reasonable cost, and in a timely fashion.

This new service is a result of our continual effort to provide our clients with a “one-stop shop” approach for Architectural and Engineering services.

Please contact Mark Thompson, Vice President of A&E Services, for additional information.
